Project requirements

The Modern Job Hunting Portal

Overview

HireLoop is a full-featured job hunting portal that bridges the gap between job seekers and employers. It streamlines job discovery, application management, and company recruitment — all in one platform.

It offers smart job search, company profiles, subscription-based premium features, and a recruiter toolkit, enhancing hiring speed and candidate experience.

Designed for both individuals and organizations, HireLoop simplifies the talent acquisition process while ensuring a transparent, fast, and data-driven hiring experience.

User Roles

The HireLoop system is built around three core user roles — **Seeker**, **Recruiter**, and **Admin** — each responsible for distinct parts of the hiring workflow. Their coordinated interactions ensure a seamless end-to-end job marketplace experience.

□ 1. Seeker

Seekers are registered job hunters who use HireLoop to discover and apply for opportunities. Their responsibilities include:

- Creating and maintaining a personal profile with skills, and contact details.
- Browsing and searching jobs with advanced filters (location, salary, type, etc.).
- Saving favorite jobs for later review.
- Applying to jobs directly through the platform — the Free plan includes a limited number of applications, with paid plans for more.
- Tracking the status of submitted applications from the dashboard.
- Upgrading to a Pro or Premium plan to unlock more applications and premium features.

□ 2. Recruiter

Recruiters are company representatives who source and hire talent through HireLoop. Their key functions include:

- Registering and managing a company profile on the platform.
- Posting, editing, and removing job listings tied to their company.
- Reviewing and managing incoming applications for each job post.

- Viewing analytics on job post performance and applicant activity.
- Choosing a subscription plan that sets how many active job posts the company can run at once.

□ 3. Admin

Admins are platform operators responsible for ensuring the quality and integrity of the HireLoop ecosystem. Their key functions include:

- Managing all registered users (Seekers and Recruiters) with role control.
- Reviewing, approving, or rejecting company registrations submitted by Recruiters.
- Monitoring and moderating all job listings across the platform.
- Viewing platform-wide analytics including user growth, job post counts, and revenue.
- Managing subscription plans and payment records.

Dashboard Requirements

Layouts

The system will have a **Responsive Dashboard** consistent across all roles.

A Sidebar at the Left:

- Contains the HireLoop logo, user info (Name, Avatar, Email, Role).
- Dynamic navigation links based on the logged-in user's role.
- Navigation links to public pages (Home, Browse Jobs, Companies, Pricing).
- A Logout Button — clicking it ends the session and redirects to the homepage.

Pages at the Right:

- Pages are rendered dynamically based on the current route.

Public Pages

Home Page

- Hero section with headline, subheadline, and CTA buttons ("Search Jobs", "Post a Job").
- Live stats: Active Jobs, Companies, Job Seekers, Satisfaction Rate.
- Featured Jobs section with hand-picked listings in card format.
- Platform features section highlighting Smart Search, Salary Insights, Top Companies, and Saved Jobs.
- Footer with navigation links for Job Seekers, Employers, and Company info.

Browse Jobs (/jobs)

- A search bar with keyword input.
- Filter sidebar with options for job type, location, salary range, and category.
- Job listing cards displaying: title, company, location, type, and salary range.
- Clicking a job card navigates to the Job Details page.

Companies (/companies)

- Displays all registered and approved companies in a card grid.
- Filter tabs by industry (e.g., Fintech, AI, Developer Tools, E-Commerce, etc.).
- Each company card shows: logo/avatar, name, industry, location, employee count, and number of open jobs.
- Clicking a company card navigates to that company's profile page.

Pricing (/pricing)

- A toggle (or two tabbed sections) to switch between **For Job Seekers** and **For Recruiters**, each showing three tiers in card format.

For Job Seekers

Plan	Price	Key Features
Free	$0/forever	Browse & save up to 10 jobs, apply to up to 3 jobs per month, basic profile, email alerts
Pro	$19/month	Apply to up to 30 jobs per month, unlimited saved jobs, application tracking, salary insights
Premium	$39/month	Everything in Pro + unlimited applications, profile boost to recruiters, early access to new jobs, priority support

For Recruiters

Plan	Price	Key Features
Free	$0/forever	Up to 3 active job posts, basic applicant management, standard listing visibility (great for a company's first year of hiring)
Growth	$49/month	Up to 10 active job posts, applicant tracking, basic analytics, email support
Enterprise	$149/month	Up to 50 active job posts, advanced analytics dashboard, featured job listings, team collaboration, custom branding, priority support

- FAQ accordion section covering cancellation, refunds, payment methods, and plan switching.

Job Details Page (/jobs/:jobId)

- Full job description, responsibilities, and requirements.
- Company info card with logo, name, and location.
- Salary range and job type badge.
- Apply button (requires login; the Free plan allows a limited number of applications, paid plans allow more).
- Similar job suggestions at the bottom.

Seeker Dashboard

Seeker Home

Stats Row: Display counts for — Saved Jobs, Applications Submitted, Interviews Scheduled, Offers Received.

Recharts & Profile Card:

- Left: User profile card showing name, email, photo URL, and an Edit button.
- Right: A Pie Chart or Bar Chart showing application status distribution (Applied, Under Review, Shortlisted, Rejected, Offered).

Recent Activity: A notification-style list of recent application updates and job alerts.

Browse & Apply (/dashboard/seeker/jobs)

- Full job search experience within the dashboard.
- Filters for job type, location, salary, and category.
- Each listing has a Save button and an Apply button.
- The apply button triggers a modal to confirm the application or upload a cover letter.

Saved Jobs (/dashboard/seeker/saved)

- Displays all jobs the Seeker has bookmarked.
- Table/card format with: job title, company, location, salary, date saved.
- Each row has a Remove button and an Apply button.

My Applications (/dashboard/seeker/applications)

- Table of all submitted applications.
- Columns: Job Title, Company, Date Applied, Status (Applied / Under Review / Shortlisted / Rejected / Offered).
- Each row has a View Details button linking to the job listing.
- Date shown in relative format (e.g., "5 days ago").

Subscription & Billing (/dashboard/seeker/billing)

- Shows the Seeker's current plan (Free / Pro / Premium) and applications used this month.
- Upgrade/Downgrade buttons linking to the Pricing page.
- Payment history table with: Date, Plan, Amount, Transaction ID.
- Stripe-integrated card payment on upgrade.
- On successful payment: save payment record, activate the new plan, show a success toast.

Seeker Settings (/dashboard/seeker/settings)

- Update profile info: name, email, avatar/photo URL, password.
- Upload or update resume (PDF).
- Add/edit skills, headline, and bio.

Recruiter Dashboard

Recruiter Home

Stats Row: Total Job Posts, Total Applicants, Active Jobs, Jobs Closed.

Recharts & Company Card:

- Left: Company profile card (name, logo, industry) with Edit button.
- Right: Bar chart showing applicant count per job post over the last 30 days.

Recent Applications: A notification-style list of the latest applicants across all job posts.

My Company (/dashboard/recruiter/company)

- If no company is registered: Show a prompt and a "Register Company" button.
- If registered: Show company details — name, logo, industry, location, employee count, description.
- Edit button to update company information.
- Company status badge: Pending / Approved / Rejected (set by Admin).

Register / Edit Company Form

Fields:

- Company Name, Industry/Category, Website URL
- Location, Employee Count Range
- Company Logo (image upload)
- Short Description

On submit: save to database with status pending. Admin must approve before the company appears publicly.

Manage Jobs (/dashboard/recruiter/jobs)

- Table of all job posts created by the Recruiter.
- Columns: Job Title, Status (Active / Closed / Draft), Applicants Count, Date Posted.
- Action buttons per row: Edit, View Applicants, Close/Reopen, Delete (with confirmation).
- A plan usage indicator showing active job posts used vs. allowed (e.g., 7 / 10).

- A "Post New Job" button at the top navigating to the Add Job page (disabled once the plan's active job limit is reached).

Post a Job (/dashboard/recruiter/jobs/new)

A form divided into sections:

Job Info:

- Job Title, Job Category, Job Type (Full-time / Part-time / Remote / Contract / Internship)
- Salary Range (Min & Max), Currency
- Location (City, Country) or Remote toggle
- Application Deadline

Job Description:

- Responsibilities (rich text or textarea)
- Requirements (rich text or textarea)
- Benefits (optional)

Company: Auto-filled from the Recruiter's registered company (must be approved to post). Posting is allowed only while the company is within its plan's active job limit (3 / 10 / 50 for Free / Growth / Enterprise).

On submit: save job with status active, link to Recruiter's company, and make it publicly visible.

View Applicants (/dashboard/jobs/:jobId/applicants)

- List of all Seekers who applied for a specific job.
- Table columns: Applicant Name, Email, Date Applied, Resume link, Status.
- Status dropdown per applicant: Applied → Under Review → Shortlisted → Rejected → Offered.
- Changing status sends an email notification to the applicant.

Subscription & Billing (/dashboard/recruiter/billing)

- Shows the company's current plan (Free / Growth / Enterprise) and active job usage (e.g., 7 / 10 used).
- Upgrade/Downgrade buttons linking to the Pricing page.
- Payment history table with: Date, Plan, Amount, Transaction ID.
- Stripe-integrated card payment on upgrade.
- On successful payment: save payment record, activate the new plan (raising the active job limit), show a success toast.

Recruiter Settings (/dashboard/recruiter/settings)

- Update personal info: name, email, avatar, password.

- Manage linked company (redirect to My Company page).

Admin Dashboard

Admin Home

Stats Row: Total Users, Total Recruiters, Total Companies, Total Jobs Posted, Platform Revenue.

Recharts:

- Bar chart of job posts per category.
- Line chart of new user registrations over the past 30 days.

Recent Payments: Notification-style list of the latest subscription transactions.

Manage Users (/dashboard/admin/users)

- Search bar filtering by email address.
- Filter dropdown by role (Seeker / Recruiter).
- Table of all platform users: Name, Email, Role, Join Date, Status.
- Action buttons:
    - Make Recruiter (if currently Seeker) — with confirmation alert.
    - Make Seeker (if currently Recruiter) — with confirmation alert.
    - Suspend / Activate account.

Manage Companies (/dashboard/admin/companies)

- Table of all company registrations.
- Columns: Company Name, Recruiter Email, Industry, Status (Pending / Approved / Rejected), Date Submitted.
- Conditional action buttons:
    - Approve (if status is Pending or Rejected) — sets status to approved, company becomes publicly visible.
    - Reject (if status is Pending or Approved) — sets status to rejected, company is removed from public listing.

Manage Jobs (/dashboard/admin/jobs)

- Search bar filtering by job title or company name.
- Filter by job status (Active / Closed) and category.
- Table of all job posts: Title, Company, Category, Type, Date Posted, Status.
- Action buttons: View (go to job details), Remove (delete with confirmation).

Payment & Subscriptions (/dashboard/admin/payments)

- Table of all subscription payments across the platform.
- Columns: User Email, Plan, Amount, Date, Transaction ID, Status.
- Date shown in both absolute and relative format (e.g., "May 10, 2026 · 9 days ago").
- Summary cards at the top: Total Revenue, Monthly Revenue, Active Seeker Subscriptions, Active Recruiter Subscriptions.

Admin Settings (/dashboard/admin/settings)

- Update admin profile: name, email, avatar, password.

Application Status Flow

Job Posted → Seeker Applies → Under Review → Shortlisted → Offered / Rejected

Application Status

Status	Description
Applied	Seeker has submitted an application
Under Review	Recruiter has started reviewing the application
Shortlisted	Candidate has been shortlisted for interview
Rejected	Application has been declined
Offered	Candidate has received a job offer

Company Status

Status	Description
Pending	Company registration submitted, awaiting admin review
Approved	Company verified and publicly visible
Rejected	Company registration declined by Admin

HireLoop has two separate sets of plans — three for **Job Seekers** and three for **Recruiters** — since each role pays for different things (applications vs. active job posts).

Seeker Plans

Plan	Price	Apply to Jobs	Saved Jobs	Extras
Free	$0	Up to 3/month	Up to 10	Basic profile, email alerts
Pro	$19/mo	Up to 30 / month	Unlimited	Application tracking, salary insights

Plan	Price	Apply to Jobs	Saved Jobs	Extras
Premium	$39/mo	Unlimited	Unlimited	Profile boost, early access to new jobs, priority support

Recruiter Plans

Plan	Price	Active Job Posts	Analytics	Extras
Free	$0	Up to 3	✗	Basic applicant management, standard visibility
Growth	$49/mo	Up to 10	Basic	Applicant tracking, email support
Enterprise	$149/mo	Up to 50	Advanced	Featured listings, team collaboration, custom branding, priority support

New companies can post up to 3 active jobs for free — ideal for their first year of hiring — and upgrade to Growth or Enterprise as their hiring scales.

Payment is processed via **Stripe**. All plans support upgrade/downgrade at any time with prorated billing. A 14-day money-back guarantee applies to paid plans.
